

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Cozygrams: Couch Nonograms

App URL: <https://play.google.com/store/apps/details?id=com.cozygrams.tv>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to conduct thorough testing and obtain detailed feedback on CozyGrams. Additionally, we reached out to some of our target users, puzzle enthusiasts and casual gamers, to gather real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers engaged actively, providing valuable feedback on user experience, navigation, and feature requests. Their insights led to critical improvements,

including enhancing onboarding processes and refining app visuals, which significantly increased user satisfaction and engagement.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for a dynamic walkthrough, improved Play Store screenshots, and features like "Rate Your App" and "Share App" options. Feedback was collected through surveys, direct communication, and in-app feedback tools, ensuring comprehensive insights.

5) Who is the intended audience for your app?

CozyGrams is designed for puzzle lovers and casual gamers who enjoy nonograms. It caters to individuals and families seeking a relaxing, cooperative gaming experience that fosters creativity and problem-solving in a cozy environment, suitable for all ages.

6) Describe how your app provides value to the users.

CozyGrams offers a unique nonogram experience for solo or cooperative play, with no ads or in-app purchases. Users enjoy beautifully crafted puzzles,

a soothing soundtrack, and engaging visuals, making it a delightful way to unwind and challenge their minds together.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We implemented a dynamic onboarding walkthrough for new users, improved Play Store screenshots to reflect app features, and added "Rate Your App" and "Share App" options in settings to enhance user engagement and increase visibility on the Play Store.

9) How did you decide that your app is ready for production?

After extensive testing and incorporating user feedback, we ensured CozyGrams is stable, user-friendly, and fully optimized for a seamless experience. We believe the app meets all criteria for production deployment and is ready to delight users on Google Play.

10) What did you do differently this time?

This time, we focused on gathering more comprehensive feedback by engaging a wider audience of testers. We prioritized user experience enhancements and added features based on direct user input, resulting in a more polished and user-centric app ready for production.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
